peter.ramsing@mac.com | (541) 231-3620 | Portland, Oregon

A determined software developer, with a focus on web applications, marketing site development, business strategy, and software team leadership.

Peter offers a unique skillset with experience maintaining the largest CSS grid for PostCSS, developing large-scale web applications, and jump-starting software teams to perform beyond expectations.

Key Skills

- Extremely skilled in producing maintainable CSS using vanilla or pre-processors.
- Outstanding ability to write vanilla JavaScript or using libraries such as jQuery, and writing ES2015 along with writing against linters and TDD.
- Well versed in modern HTML with the ability to write extremely maintainable markup.
- Ability to write Ember.JS and integrate it within non-Ember codebases.
- Experienced with leading and participating in both Waterfall and Agile methodologies.
- Skilled at keeping cool under stressful situations learned from my many outage recovery war stories.
 - Proven skills in reducing outages situations and improving reliability of codebases using improved planning, linting, test-driven development, and overall quality improvements.
- Open to rapid and fast paced changes with constantly evolving business targets and web toolsets.
